Dave Pelton and I were wondering about possibly using the crushed stone path as an alternative to concrete in the park ----- does everyone think the boardwalk would be the better choice ?

Let's not worry about the funding.....Comm. Rader would have to take an agenda item, and we don't need to mess with that,

John, please amend the Project Agreement to reflect this extra \$90K for the boardwalk in the Park, as one of our HOST items,

Thanks,

Ted

I will get with Commissioner Rader on the funding as soon as possible (I left him a message). Is the \$90K the cost for boardwalk or the difference between boardwalk and concrete? Also, is that boardwalk from the Willivee Bridge to the edge of the wooded area? That is what made sense to me when I walked the park but am open to feedback from PATH/Ecos.

I will work with Marvin Billups and parks staff on removal of the roadway leading to the back of
